Summary of Interview

Applicant thanks the Examiner for the courteous interview provided applicant's representatives. This interview discussed the independent claims and applicant's representative argued that the claims, as amended were patentable over Thackston for the previously submitted reasons. Applicant's representatives and the Examiner discussed each of the independent claims and compared them with Thackston and the Examiner concluded that the claims appeared to patentably distinguish over Thackston. The Examiner pointed out a potential problem with claim 50. Claim 50 has been cancelled and replaced by claim 92 which claims a computer having characteristics similar to those in the cancelled claim. Claim 51 and 91 have been amended to conform with the replacement of claim 50 by claim 92.

Applicant submits that the claims are patentable. Notice to this effect is respectfully solicited.

Respectfully submitted,
